College Of Engineering
Bradley Department of Electrical and Computer Engineering

Degree: Bachelor of Science in Computer Engineering

Major: Chip-Scale Integration

For students entering under UG Catalog 2023-2024
Credits Required for graduation: 128

General Information about Checksheet: Superscripted annotation after the course number (1) indicates core course of the degree while (2) indicates courses associated with the major. Additionally, (F, S, SI, SII) in credits column indication terms when a course is expected to be offered. Course offerings are subject to change and the availability of sufficient resources. Students should confirm course offerings in advance with their department.
*Prerequisites for PHYS 2305: Pre: (MATH 1205 or MATH 1205H or MATH1225) or (MATH 1206 or MATH 1206H or MATH 1226); Co: 2325 or (MATH 1206 or MATH 1206H or MATH 1226)
**Prerequisites for ECE 4805: Pre: 2804, (3004 or 3504), (3105 or 3514) (3106 or 3134 or 3204 or 3214 or 3304 or 3544 or 3564 or 3574 or 3614 or 3704 or 4205 or 4234 or 4254 or 4424 or 4524 or 4540 or 4580 or 4704)

Electives: The Chip-Scale Integration Major requires 7 hours of free electives. Only free electives may be taken under the P/F grading option. Students are encouraged to use free elective credits to provide depth in their major or secondary focus.

Secondary Focus: The Chip-Scale Integration Major requires 9 credits for a secondary focus area. Students have the flexibility to choose any 3 ECE courses (9 credits) at the 3xxx level, 4xxx level or 5xxx level to meet the secondary focus requirements as long as at least one course (3 credits) is at the 4xxx or 5xxx level and the courses do not duplicate major courses. Alternatively, students may seek an approved individualized secondary focus. See the requirements below (page 3) for more information.

Change of Major Requirements: Please see: https://eng.vt.edu/em

Foreign Language Requirements: Students must have had 2 years of a foreign language in high school or one year at the college level (6 credit hours) of the same language. College-level credits used to meet this requirement do not count towards the degree.

Satisfactory Progress Towards Degree: University Policy 91 outlines university-wide minimum criteria to determine if students are making satisfactory progress towards the completion of their degrees. The ECE Department fully supports this policy. Specific expectations for satisfactory progress for BSCPE and BSEE majors are as follows:

- Upon completing 2 semesters in ECE, students must have satisfactorily completed ECE 2024, ECE 2514, ECE 2544, MATH 2214, and PHYS 2306
- Upon completing 3 semesters in ECE, students must have satisfactorily completed ECE 2804.
- Upon attempting 90 credits, BSCPE and BSEE students must have successfully completed 33 credits of in-major courses and have 2.0 overall and in-major GPAs. (The BSCPE and BSEE in-major GPA includes all ECE courses, including repeats).

Grade Requirement: Students must earn a C or higher in the following ECE courses: ECE 1004, ECE 2024, ECE 2214, ECE 2514, ECE 2544, ECE 2564, ECE 2714, ECE 2804.

Statement of Prerequisites: Pre-requisites for each course are listed after the course title. In general, all ECE courses require a C- or better in prerequisite courses. Students must earn a C or higher in the ECE courses listed above. There are no hidden prerequisites in this program of study. Prerequisites may change from what is indicated. Be sure to consult the Timetable of Classes or check with your advisor for the most current requirements.

Graduation Requirements: Each student must complete at least 128 semester credit hours with a minimum overall GPA of 2.00 and a minimum in-major GPA of 2.00. In determining the Chip-Scale Integration in-major GPA, all ECE courses plus ENGE 4735 plus ENGE 4736, including repeats, are used.

~Additional Checksheet Comments:

- ENGE 1414 (4c) may be substituted for ENGE 1215 (2c) + ENGE 1216 (2c)
- MATH 2405H (5c) may be substituted for MATH 2114 (3c)
- MATH 2405H (5c) + MATH 2406H (5c) may be substituted for MATH 2114 (3c) + MATH 2204 (3c) + MATH 2214 (3c)
- MATH 3034 (3c) may be substituted for MATH 2534 (3c)
- ENGE 4735 (3c) + ENGE 4736 (3c) may be substituted for ECE 4805 (3c) + ECE 4806 (3c). Note: Students who wish to enroll in ENGE 4735/ENGE 4736 must successfully complete all prerequisites for ECE 4805 and must be approved by the Director of the ECE Major Design Experience prior to enrolling in ENGE 4735/ENGE 4736. These courses will also count in the in-major GPA

SECONDARY FOCUS REQUIREMENT
Chip-Scale Integration Major
For students entering under UG Catalog 2023-2024

The ECE Secondary Focus Requirement can be completed in one of two ways: Within ECE or as an Individualized Secondary Focus.

WITHIN ECE

The ECE Secondary Focus Requirement consists of 3 ECE courses (9 credits) at the 3xxx level, 4xxx level, or 5xxx level where at least one course (3 credits) is at the 4xxx or 5xxx level. **None of the 3 courses can duplicate a course from the student's major.** For a list of recommended courses grouped by major/research area, please refer to https://ece.vt.edu/undergrad/curriculum.html.

- The following courses are also included in the secondary focus:
  - AOE 4654 (ECE 4154) Space Weather, Pre: AOE 3104 or ECE 3105
  - AOE 4674 (ECE 4174) Upper Atmosphere Space Weather, Pre: AOE 3104 or ECE 3105
  - CS 3214 Computer Systems, Pre: (CS 2506, CS 2114) or (ECE 2564, ECE 3574)
  - CS 4224 (ECE 4414) Linux Kernel Programming, Pre: CS 3114 or ECE 3574
  - CS 4264 Principles Computer Security, Pre: CS 3214 or (ECE 3504, ECE 3574)
  - CS 4504 (ECE 4504) Computer Organization, Pre: CS 3214 or ECE 2500 or ECE 3504
  - CS 4824 (ECE 4424) Machine Learning, Pre: (ECE 2574 or CS 2114), (STAT 4604 or STAT 4705 or STAT 4714)
- All courses used for secondary focus must be taken on an A-F basis.
- The following courses **cannot** be used toward secondary focus:
  - ECE 3054 Electrical Theory, Pre: PHYS 2305; Co: MATH 2214
  - ECE 3074 AC Circuits Lab, Pre: 2804; Co: 3004
  - ECE 3254 Industrial Electronics, Pre: 2054
  - ECE 3274 Electronic Circuits Lab II, Pre: 2804, 3074; Co: 3204
  - ECE 3354 Power Lab
  - ECE 3524 Introduction to Unix for ECE, Pre: 2804
  - ECE 4944 Cybersecurity Seminar, Pre: 2804 or CS 2505
- For purposes of satisfying the Secondary Focus requirements, the sum of the number of hours taken from ECE 4974 Independent Study and ECE 4994 Undergraduate Research cannot exceed 6 credits.

INDIVIDUALIZED SECONDARY FOCUS (Must be preapproved by ECE Department)

Electrical and computer engineering has applications across a wide variety of fields, such as medicine, human-computer interaction, finance, and entertainment. People with ECE degrees can be entrepreneurs, patent lawyers, policy makers, and business executives. The individualized secondary focus helps students pursue these interests. This option can be used in place of a pre-defined, in-department secondary focus.

The individualized secondary focus typically is pursued via an already defined university-approved program such as a degree, major, minor, or certificate that the student has declared. Students are encouraged to select courses from these programs, subject to the guidelines below.

1) To begin this process, students must first meet with their academic advisor.
2) The student must complete a brief proposal form describing the expected added value to their major. This includes a narrative about how these courses support the student's career goals and ability to achieve their professional aspirations. This proposal must be approved by the Director of Undergrad Program or designee.
3) Individualized secondary focus plans must include 3 courses within the following parameters:
   a. None of the courses may duplicate the student's ECE major requirements.
   b. None of the courses can be at the 1xxx level (1xxx courses required for university-approved programs, e.g. minors, can be used for a student's free electives).
   c. A maximum of one course can be at the 2xxx level, and only if it is a requirement of a university approved program, or if the course is a prerequisite to one or more of the other two courses in the individualized secondary focus.
   d. A minimum of one course must be at the 4xxx level.
4) If the set of courses is part of an already defined university program, the student should attach documentation to the proposal form.

5) If the set of three courses are *not* part of an already defined university-approved program, the student must also obtain written approval from the department that houses the courses.
6) It is the student's responsibility to ensure that the set of courses is available to be taken in a timely manner. The ECE department is not responsible for changes of programs elsewhere in the university.
